Cell Phone Usage and Reimbursement Policy

All employees supplied with a County cell phone may choose one of two methods regarding personal phone calls:

1. Personal Use

Method One – Reimbursement of Personal Use
An employee may use the County issued phone for personal use and be charged a monthly personal use fee (the monthly fee for 2009 will be $13) which will be deducted from his/her pay check. If the employee has text and internet service, the fee will be $25 per month unless personal usage causes the bill to exceed the allowable minutes and rate. (If the employee needs texting and internet service for work purposes only and does not use it for personal use, they will only be charged the phone personal use fee.) These fees will be adjusted on an annual basis and deducted on the second pay of the month.

The employee will be expected to keep personal use during business hours to a minimum and to make calls in the most cost-effective way.

County telephone billings are subject to FOIA access.

Method Two – No Personal Use Allowed
An employee can use his/her County issued cell phone exclusively for business use and will be required to sign each monthly bill declaring no personal use. This bill will be reviewed by the Department Head to verify all usage is business necessary. The entire bill will be forwarded to Financial Services for review.

2. Lost Phones

Any employee who loses a County issued phone will be charged a fee equaling 50% of the cost of replacement of the telephone. If the employee loses a second phone within the same year, the fee will total 100% of the County’s cost for the replacement phone.

3. Purchasing Phones and Accessories

The County may purchase a replacement or upgraded phone no more than once every two years. This includes any necessary accessories. Any phone may be updated more often if specially requested by the Department Head and justified for County business purposes.

4. Internet and Texting Options

Internet and texting capabilities will be limited to employees whose job duties require daily use of internet and texting. All employees requesting these options must supply a detailed County business justification and Department Head approval.

5. Business Use of Personal Cell Phones

Any employee may be reimbursed for the actual cost of business calls required to be made on a personal telephone. The County will not reimburse expenses associated with normal monthly costs, service fees, or equipment repair charges. The amount proposed to be reimbursed must be documented with a copy of an itemized billing statement.

A) Business calls made using “free time” under a cellular phone agreement may be reimbursed at a rate of $.10 per minute. In no case will the reimbursement exceed the total amount of the cell phone bill.

B) Alternatively, reimbursement for business calls may be calculated in proportion to total usage available under a plan. When using this method, the total minutes used for business call shall be determined and divided by the total minutes available on the plan as set out on the billing for that phone. The resulting fraction shall be multiplied by the total current charges for that phone.

In either case, the employee is required to submit a monthly expense reimbursement form.

Ingham County Agricultural Preservation Program
Selection Criteria for Protection of Farmland
A System for Ranking Applications

Criteria are divided into four main sections
Agricultural Characteristics (72 points)
Development Pressure (36 points)
Additional Ag Protection Efforts (40 points)
Other Criteria (30 points)

AGRICULTURAL CHARACTERISTICS (72 POINTS)

1) Agricultural Productivity

Soil Classification Groupings according to USDA-NRCS based on yields (in bushels).

- Group 1 – Group 2 (potential 130+ bu corn yields and 50+ bu soybean yields) 20 points
- Group 3 – Group 4 (potential 110-129 bu corn yields and 40-49 bu soybean yields) 15 points
- Group 5 – Group 6 (potential 90-109 bu corn yields and 30-39 bu soybean yields) 10 points
- Group 7 – Group 8 (potential 70-89 bu corn yields and 20-29 bu soybean yields) 5 points
- Group 9 – Group 10 (potential 50-69 bu corn yields and 10-19 bu soybean yields) 0 points

Example: 70% of parcel has Group 2 soils x 20 pts = 14 points
30% of parcel has Group 3 soils x 15 pts = 4.5 points
Total points = 18.5

2) Size of Parcel (s)

Points for parcels between 40 and 200 acres are calculated by multiplying 0.125 times the parcel size. Any parcel above 200 acres receives 25 points. Parcels that are 0-39.99 acres receive 0 points.

Example: Parcel size is 150 acres; 150 x 0.125 = 18.75
Example: Parcel is 85 acres; 85 x 0.125 = 10.63
Example: Parcel is 350 acres; 25 points, the maximum possible
Example: Parcel is 32 acres; (0 points for parcel less than 39.99 acres)

3) Additional Agricultural Income

Points will be awarded to operations that demonstrate a commitment to “value-added” agriculture either through animal related production or through production of a specialty crop (crops other than corn, wheat, soybeans), or both, with total sales over $10,000.00 annually.

Example: Parcel is integral to farm operation that produces a specialty crop, which grosses over $15,000 annually. Total Points = 5 points

4) Enrollment in the Farmland and Open Space Preservation Act (PA 116)

If only a percentage of the parcel is enrolled, then the percentage is multiplied by the maximum number of points (10) to result in a point’s value.

Enrolled in PA 116 10 points
Not enrolled in PA 116 0 points

Example: Two adjacent 50 acre parcels are submitted as part of the same application by the same landowner. Only one 50 acre parcel is currently enrolled (50%). Total Points = 5 points

5) Proximity to Existing Livestock Farms

A livestock operation for this purpose means a farm with more than 50 animal units (EPA definition; 1000 lbs = 1 unit)

Parcel is contiguous to an existing livestock operation 5 points
Parcel is located between 0.5 miles and 1 mile of an existing livestock operation 3 points
Parcel is located further than 1 mile from an existing livestock operation 0 points
DECEMBER 9, 2008 REGULAR MEETING

*Contiguous for this section means no other parcel is located in between the parcels. Parcels separated only by a road are considered contiguous.

6) **Amount of undeveloped land in the surrounding area**  
**Maximum Points: 7**
A circle with a 1 mile radius and with a centroid (center point) generated by computer is used to calculate the points in this section.

- 75% or more of the surrounding area is undeveloped land  
  - 7 points
- 50% or more but less than 75% of the surrounding area is undeveloped land  
  - 5 points
- 25% or more but less than 50% of the surrounding area is undeveloped land  
  - 2 points
- Less than 25% of the surrounding area is undeveloped land  
  - 0 points

**DEVELOPMENT PRESSURE (36 POINTS)**

7) **Proximity to Existing Public Sanitary Sewer or Water, or both**  
**Maximum Points: 10**
Linear (straight line) distance to existing, usable public sanitary sewer, or water services, or both, will result in the following scoring options:

- Less than one-half (1/2) mile from sewer or water  
  - 0 points
- One-half (1/2) mile or more but less than 1 mile  
  - 5 points
- One (1) mile or more but less than 2 miles  
  - 10 points
- Two (2) miles or more but less than 5 miles  
  - 8 points
- More than 5 miles  
  - 6 points

*Example: Parcel is located 3 miles from existing sewer lines. Total points = 8 points.*

8) **Development Activity in Township**  
**Maximum Points: 3**
Townships will be in one of four ranked groups of four townships each. The top four townships in terms of number of building permits issued by a township will be placed in the highest ranked group. The remaining three groups of townships will be formed similarly. Parcel located in the group of townships with the highest number of new building permits  
- 3 points
Parcel located in the group of townships with the second highest number of new building permits  
- 2 points
Parcel located in the group of townships with the third highest number of new building permits  
- 1 point
Parcel located in the group of townships with the lowest number of new building permits  
- 0 points
Parcel located in a city or village  
- 0 points

*Example: Parcel is located within a township that falls into the group of townships which has the second largest tier of new building permits. Total points = 2 points.*

9) **Proximity to designated population centers (as defined by Tri-County Planning; The Growth Project) in Ingham County**  
**Maximum Points: 8**
Points are awarded based on linear distance from nearest farm boundary to designated population centers (as defined by Tri-County Planning; The Growth Project)

- Farm boundary is 2 miles from population center  
  - 8 points
- Farm boundary is 3 miles from population center  
  - 6 points
- Farm boundary is 4 miles from population center  
  - 4 points
- Farm boundary is 5 miles from population center  
  - 2 points
- Farm boundary is more than 5 miles from population center  
  - 0 points

*Example: Farm is located 2 miles from “designated population center. Total points = 8 points*

10) **Road Frontage (paved or gravel)**  
**Maximum Points: 15**
Emphasis is placed on parcels with greater linear distance of road frontage, placing the farmland under a greater threat of fragmented development. Frontage can be gravel, paved, or both and must be adjacent to the subject parcel. Points are calculated using a multiplier factor of 0.0284 with a maximum of 15 points for 5280 feet (1 mile). Linear feet are divided by 10 then multiplied by 0.0284.

Road frontage of 5280 feet (1 mile) or more \( \frac{5280}{10} = 528 \times 0.0284 = 15.0 \) 15 points
Road frontage of 2640 feet (1/2 mile) \( \frac{2640}{10} = 264 \times 0.0284 = 7.5 \) 7.5 points
Road frontage of 1320 feet (1/4 mile) \( \frac{1320}{10} = 132 \times 0.0284 = 3.75 \) 3.75 points

Example: Parcel has 1 mile of road frontage. Total points = 15 points

**ADDITIONAL AGRICULTURAL PROTECTION EFFORTS (40 POINTS)**

11) Location to other protected property  
**Maximum Points: 20**
Parcel is near other private land which has been permanently protected from development through a conservation easement or deed restriction (development rights may have been purchased, transferred or donated). Linear distance is used from nearest farm boundary.
Parcel is adjacent to protected land 20 points
Parcel is not adjacent but within 1/2 mile of protected land 15 points
Parcel is not adjacent but within 1 mile of protected land 10 points
Parcel is not adjacent but within 2 miles of protected land 5 points

Example: Parcel is adjacent to property under a permanent conservation easement = 20 points

12) Agricultural District Zoning  
**Maximum Points: 10**
Additional points are given to a parcel that is in a designated agricultural district.
Exclusive Agricultural District A-1; (Restricts residential development) 10 points
General Agricultural District A-2; (Rural residential zoning) 3 points
Non-Agricultural District 0 points

Example: Parcel has been designated as an exclusive agricultural district, A-1 (maximum density 1 unit per 20 acres) under current zoning. Total Points = 10 points

13) Block Applications  
**Maximum Points: 10**
Emphasis is placed on applications which consist of one or more landowners who create a 50 acre or more, block of contiguous farmland. Contiguous blocks of farmland have a greater potential for creating a long-term business environment for agriculture. Parcels applying in a block application must be contiguous (touching but may be separated by a road). Each applicant in the block application will receive points for this section.

One or more landowners apply together to create 1000 or more contiguous acres 10 points
One or more landowners apply together to create 750 to 999 contiguous acres 8 points
One or more landowners apply together to create 500 to 749 contiguous acres 6 points
One or more landowners apply together to create 0 to 500 contiguous acres 0 points

Example: Four landowners, with varying parcel acreage, submit a block-application of over 800 contiguous acres. (Each of the four landowners would receive 8 points for this section)

Note: If a parcel in a block application is preserved, the remaining landowners will continue to receive full points for this section of the scoring criteria in future cycles, provided they still wish to participate in the block application.
OTHER CRITERIA (30 POINTS)

14) Additional points based on matching funds  Maximum Points: 20

0-24% donation 0 points
25% or greater donation multiply by 0.4 (max. 20 points)

Example 1: Landowner is willing to donate 25% of the development rights value
\(25 \times 0.4 = 10\)  Total Points = 10 points

Example 2: Landowner is willing to donate 50% of the development rights value.
\(50 \times 0.4 = 20\)  Total Points = 20 points

(The State Agriculture Preservation Fund Board states that a 25% local match is a priority for allocating matching funds to programs.) Donating a percentage of the easement value is considered a charitable gift donation by the IRS. Seek financial consultation from a CPA or professional advisor.

15) Additional Agricultural Characteristics  Maximum Points: 5

Additional agricultural characteristics are USDA certified organic farms, or Centennial farms.
Parcel has additional agricultural features 5 points
Parcel does not have additional agricultural features 0 points

16) Michigan Agricultural Environmental Assurance Program (MAEAP)  Maximum Points: 5

Participation in the MAEAP demonstrates a commitment to environmental stewardship above and beyond a conservation plan. The State Agriculture Preservation Board has identified the MAEAP as a priority to providing matching funds. Farms verified under the MAEAP must show verification to receive points.
Farm is MAEAP verified 5 points
Farm is not MAEAP verified 0 points

TOTAL POINTS POSSIBLE – 178

See preliminary information below

Applicants note: Landowners that accept Federal, State or Local Matching Funds to protect their farmland may be selected for the program before landowners that do not accept such funds regardless of their relative ranking based on the above “Selection Criteria for Farmland”.

INGHAM COUNTY, MICHIGAN
REGULATION ELIMINATING SMOKING
IN PUBLIC AND PRIVATE WORKSITES AMENDED TO IMPROVE AIR QUALITY IN NONSMOKING AREAS IN RESTAURANTS AND BARS BY MITIGATING AIR CONTAMINATION CAUSED BY ENVIRONMENTAL TOBACCO SMOKE

Sec. 1000. Title
This article shall be known as the Ingham County Clean Air Regulation.

Sec. 1001. Authority
This regulation is hereby adopted pursuant to authority conferred upon local health departments by the Michigan Public Health Code, 1978 P.A. 368, as amended.

Sec. 1002. Jurisdiction and Administration
A. This regulation shall have effect throughout Ingham County in all areas incorporated and unincorporated, which includes cities, villages, and townships.

B. The Health Officer shall have responsibility for administering and enforcing this regulation, including all amendments hereafter adopted unless otherwise specifically stated.

C. This Regulation shall apply to any public accommodation or business enterprise operating as a food service establishment as covered by Section 33.12905 of the Michigan Public Health Code, 1978 P.A. 368, as amended inasmuch
as said law provides that all public areas of food service establishments shall be nonsmoking, except for certain areas which may be designated as seating for smokers, and shall clearly designate and maintain the nonsmoking areas.

D. In order to protect employees and members of the general public from avoidable exposure to the byproducts of tobacco combustion, the Ingham County Board of Commissioners authorizes and directs the County Health Department to devise and implement policies and requirements to effectively improve air quality in nonsmoking areas of food service establishments by mitigating air contamination caused by environmental tobacco smoke.

Sec. 1003. Purpose

A. Ingham County hereby finds and declares that:

1. The U.S. Surgeon General, National Research Council, and National Academy of Sciences, report that environmental tobacco smoke: causes lung cancer in healthy adult nonsmokers, can cause lung function and structure alteration to the fetus of pregnant non smoking women. Additionally, in utero exposure is known to predispose children to long-term pulmonary risks. Further, these agencies found, separating smokers and nonsmokers within the same air space may reduce but does not eliminate a nonsmoker's exposure to environmental tobacco smoke.

2. The U.S. Environmental Protection Agency (EPA) finds that environmental tobacco smoke is a Group A Carcinogen - a category reserved for known cancer-causing agents in humans.

3. The National Institute for Occupational Safety and Health (NIOSH):

   (a) finds that secondhand smoke poses an increased risk of lung cancer and, possibly, heart disease to people exposed in the worksite,

   (b) recommends that nonsmokers should not be exposed to secondhand smoke,

   And (c) finds that nonsmokers can be protected by elimination of smoking in the building, or establishing separately ventilated smoking areas that exhaust directly to the outside.

B. These studies find that tobacco smoke is a major contributor to indoor air pollution, and that breathing environmental tobacco smoke is a cause of disease, including cancer, heart disease and stroke in nonsmokers. At special risk are infants, children, teens, pregnant women, elderly people, nonsmokers with long-term exposure to environmental tobacco smoke individuals with cardiovascular disease, and individuals with impaired respiratory function, including the young, asthmatics and those with obstructive airway disease. Also harmed are those with health conditions induced by breathing environmental tobacco smoke including asthma, lung cancer, heart disease, respiratory infection, decreased respiratory function, including bronchoconstriction and broncho-spasm.

C. Accordingly, Ingham County finds and declares that the purpose of this regulation is to protect the public health and welfare by regulating smoking in public places and places of employment and recreation.

5. Any owner, manager, operator or employee of any establishment regulated by this regulation shall inform persons who are violating this regulation.

3. It is the business owner’s responsibility to assure that ventilation systems are in compliance with the 2006 Michigan Mechanical Code and/or to use other controls such as dilution or filtration strategies in order to improve air quality in areas designated as non-smoking. The Ingham County Health Department will evaluate the non-smoking areas during the plan review process and other times as needed; this may require evaluation by a PE Mechanical Engineer to ascertain the effectiveness of procedures, equipment or systems used to improve air quality in nonsmoking areas.

4. If, upon inspection of an establishment, the Health Officer determines that ventilation systems or dilution and filtration strategies are failing to adequately improve air quality in nonsmoking areas of the establishment, the Health Officer shall require the implementation of such measures as necessary to ensure that ventilation systems meet the minimum 2006 Michigan Mechanical Code Design standard and/or other controls such as dilution and filtration strategies are adjusted in order to adequately improve air quality.

Sec. 1011. Nonretaliation

**Sec. 1016. Effective Date**

A. Effective Date for Public Private Worksites
DECEMBER 9, 2008 REGULAR MEETING

1. This regulation shall be effective ninety (90) days from and after the date of its adoption and affect all public and private worksites, unless the employer provides written notification within ninety (90) days from the effective day of the regulation to the Health Officer requesting a hardship extension.    (c) Ten years after the effective date of this regulation, all food service establishments within Ingham County will fall within its terms.

   (d) A food service establishment may apply to the Health Officer for a variance, citing specific economic, operational, or physical reasons that make full compliance infeasible. The application must set forth the measures and procedures the establishment proposes to implement to improve air quality in nonsmoking areas that fall short of full compliance with this regulation. A single variance of up to five years may be granted, conditioned upon implementation of specific measures or procedures approved by the Health Officer. Continued failure to comply with the conditions of the variance may result in modification or rescission of the variance.

2. In the event the State of Michigan enacts legislation prohibiting smoking in public and work places, the changes made to the Ingham County Clean Air Regulation by this amendment shall be superseded by the statutory changes made by such legislation.

PROPOSED LAME DUCK SOLUTIONS FOR MICHIGAN’S TRANSPORTATION INFRASTRUCTURE:
A STIMULUS PLAN FOR JOBS AND ECONOMIC GROWTH

GOAL – MITA has created an infrastructure investment plan which is a first step towards significantly increasing funding for Michigan’s roads, bridges, and transit infrastructure and will lead to an economic turnaround for the state of Michigan. By achieving the “good” investment level proposed by the recent Transportation Funding Task Force report, the state could sustain more than 126,000 Michigan jobs, attract new business and yield nearly $41 billion in other economic benefits for Michigan’s economy.

NEEDS – The Transportation Funding Task Force report concluded that a “do nothing” scenario is unacceptable. For highways, roads, and bridges the Task Force identified a “good” level of investment as $6.1 billion annually. This is about $3 billion more than is currently being invested. For transit, the “good” level of investment was stated as $773 million. This is more than $500 million above the current investment. In total, to achieve a “good” level of investment in these areas, the state needs an additional $3.5 billion annually.

FUNDING PROPOSAL – As a first step in fixing the transportation crisis, this new MITA proposal is projected to increase funding by almost $1.5 billion above current levels. Using the existing distribution formula under PA 51, the proposed increases for each funding category are shown below:

COST TO THE AVERAGE MOTORIST

Michigan drivers currently pay approximately $30 per month to have access to over 120,000 miles of roads. Consider what consumers pay monthly for their cable TV and cell phone bills.

*Everyday Consumers Costs:*

<thead>
<tr>
<th>CABLE TV/INTERNET</th>
<th>CELL PHONE</th>
<th>ROADS/TRANSPORTATION</th>

</thead>
<tbody>
<tr>
<td>$85/Month</td>
<td>$50/Month</td>
<td>$42/Month</td>
</tr>
</tbody>
</table>

Under the MITA plan, drivers would pay about $42 per month for access to the entire state road and transit system — or an additional $12 per month.

COST OF DOING NOTHING

Under a "do nothing" scenario, Michigan's investment will be considerably less than the $3.2 billion invested in 2008 because of declining revenues and the inability to match over $1 billion in federal aid.

- The state is expected to lose more than 17,000 jobs.
- Almost half of all Michigan roads will be considered in poor condition within ten years.
- No new roads and bridges will be built for capacity improvement.
- There will be significant cutbacks in snow removal and other maintenance.

RETURN ON INVESTMENT

The MITA proposed investment plan is expected to yield more than $2.6 billion in total new investment. It will allow state and local transportation agencies to match $1.2 billion in federal aid. This additional $2.6 billion will support almost 46,000 more jobs than if no action is taken.

Under this level of investment, state trunkline pavement condition is forecasted to be at 75% good by 2015 (compared to 65% good under the "do nothing" scenario). This translates into an average of 252 additional lane miles of improved pavement each year. In addition, the plan is estimated to:

- Save more than 4.5 million hours of time for commuters, reduce harmful car emission and cut gas consumption by 3 million gallons;
- Save an estimated 1,400 lives and prevent 10,000 injuries; and
- Save consumers $250 per year in improved safety, $300 per year in vehicle maintenance costs and $450 per year in personal income—or roughly $1,000 a year in total.

The MITA transportation investment proposal is a sound stimulus plan for jobs and economic growth for the state of Michigan. This additional state investment positions Michigan to secure a higher rate of return of federal transportation dollars from Washington and brings us closer to the "good" investment level of our transportation network.

Dear Commissioner Thomas:

Your 2008-09 annual plan and budget for Child Care Fund expenditures is approved for state reimbursement in the amount of $8,461,611.50. This amount is 50% of your county’s gross annual plan and budget which is $16,923,223.00.

Act 87, P.A. 1978 prohibits the state from reimbursing county Child Care Fund expenditures which exceed a county’s approved budget. Child Care Fund policy prohibits reimbursement of capital, rental, lease and certain equipment and repair cost. If your expenditures exceed your original approved budget of $16,923,223.00, it will be necessary to submit a new/approved budget no later than September 1, 2009, with all three required signatures to be eligible for reimbursement for expenditures in excess of the original approved budget. Failure to comply with this requirement will result in state reimbursement being limited to authorized budget.

Reimbursement for In-Home Care and Basic Grant will only be made up to the amount approved for individual service components. Each county is responsible for monitoring their expenditures and notifying this office of changes, adjustments or increases to assure reimbursement. Failure to comply with these requirements (which are detailed in the Annual Plan and Budget Guidelines) will result in forfeiture of entitlement to state reimbursement.

The following In-Home Care components are authorized:

In order to assure full annual reimbursement for costs of approved Basic Grant and In-Home Care Services, it will be necessary to report all expenditures and/or costs incurred for the month of September, and any prior months within the fiscal year, on the September report. In-Home Care & Basic Grant expenditures are not to be carried to fiscal year 2009 or they will be charged against the new fiscal year amount approved for reimbursement.

Act 87, P.A. 1978, also restricts reimbursement for In-Home Care to programs that are alternatives to out-of-home institutional or foster care. Basic Grant expenditures must meet established qualifying criteria.

Child Care Fund policies, including expenditure classification, reporting requirements, and In-Home Care and Basic Grant program requirements are contained in the Child Care Fund Handbook and the Annual Plan and Budget Guidelines. Copies of each are available upon request.

It is important that you fully understand the policies and requirements and that you remain in full compliance. County expenditures that do not meet classification definitions or program requirements are not eligible for state reimbursement. If upon review or audit it is found non-reimbursable payments were made, repayment shall be required.

The Agency acknowledges the county’s written confirmation to follow its formal contract approval process as specified in the amended Annual Plan and Budget Guidelines. The Agency neither assumes the authority to approve county contracts nor opens itself to liability arising from them. All contract documents must be kept on file in the county and be made available at the time of fiscal audit.

Any claim for state monies from the Child Care Fund to cover expenditures incurred between October 1, 2008 and September 30, 2009, will signify your acceptance of the terms of this approval letter.

If you have any questions or concerns regarding this letter, please contact me at (517) 335-3489.

Sincerely,

John Evans, Director
Bureau of Juvenile Justice

Please be advised that I have accepted a new position at Ingham Parole and Clinton County Probation Parole effective 12/15/08. I am no longer assigned to Ingham Probation within the County. Please accept this correspondence as my resignation from the Ingham County Community Corrections Advisory Board.

I want to thank you for the opportunity to serve on this Board! Ensuring that appropriate and effective programming is available as a sentencing option to divert offenders from incarceration I believe is not only a fiscal necessity, but an ethical responsibility. We as professionals in the criminal justice system should not take this responsibility lightly. Again, this has been a rewarding experience and I hope I was able to make a notable contribution to the Board!

To All Who Receive this Letter:

I am submitting this letter anticipating that it will be accepted with understanding and support. When I started Care Free, I had no idea how extensive would be the administrative and leadership demands that presently exist. I either accepted invitations, or I sought out memberships in several agencies and organizations that I believed would help me to better serve as the CEO and President of Care Free Medical and Dental. This was a correct decision. As a member of the Boards of the Capital Area Health Alliance, the Ingham County Board of Health, Dr. Clarence Underwood’s Ingham County Initiative “to enhance opportunities for young men of color” and the Ingham Health Plan I have had the privilege of associating with many of the real leaders in Ingham County, and beyond, involved in developing programs to enhance access to health care for the needy in our community. I have learned a great deal from the cadre of creative, compassionate and knowledgeable women and men with whom I have shared time and energy. I believe my take on the value of my participation has been justified. But now, as the health care needs of our community and therefore the leadership needs of Care Free have increased significantly, I find that I must take a different direction.

The present and anticipated future state of our local economy makes it certain that the services that we are providing at Care Free will be in even greater demand. We are already seeing increasing numbers of recently unemployed individuals and heads of households, having lost jobs, health insurance coverage and facing possible homelessness.

I now realize that I must limit my time commitments only to endeavors that directly impact upon access to health care. This will
include improving and developing programs within Care Free that will enhance patient care, recruiting more volunteer health care providers, making access to Care Free recognizable to the needy in our community, participating in any and all activities that might lead to increased funding for our organization, developing partnerships with appropriate hospital and educational facilities and spending more time in examination rooms and less in board rooms.

Of course, all of this leads to my utilizing this communication to announce my resignation, as of January 1 2009, from the following...

- The Ingham County Board of Health
- The Capital Area Health Alliance
- The Ingham County Initiative

I hope to continue my active role with The Ingham Health Plan Board, as I see that organization’s activities and those of Care Free to be 100% compatible. I also intend to serve, as a non-board member of the Capital Area Health Alliance “Access to Health Care”- Providers committee.

I appreciate having had the opportunity to serve and share energies with so many “right minded” ladies and gentlemen. Many of you have helped me to gain experience in public health issues and provided support and wisdom as I continue to learn. I offer my heartfelt thanks to you.

I find it interesting that I have chosen this Thanksgiving Day to come to such conclusion. Maybe it makes sense.

Cordially and Gratefully,

Barry E. Saltman MD

Commissioner Debbie DeLeon  
Chairperson  
Ingham County Board of Commissioners  
Ingham County Courthouse  
P.O. Box 319  
Mason, Michigan 48854

Dear Commissioner DeLeon,

The purpose of this letter is to tender my resignation from the Potter Park Zoo Advisory Board (PPZAB) effective immediately.

Serving on the PPZAB has been one of the most frustrating community service experiences I have ever had. It was my understanding when I was appointed to the PPZAB that one of its purposes was to represent the interests of the citizens of Ingham County as the Zoo moved forward as a County rather than a City of Lansing facility. I have a long and positive history of assisting Potter Park Zoo with the design of signs and exhibits and I was excited about bringing my extensive research and extension expertise in public participation and collaborative processes to the crafting of a new future for the Zoo. I especially believed that my work on giving voice to diverse albeit underrepresented people would be useful given the need to now engage all residents of the County. Instead, I have found myself feeling more and more peripheral and marginalized as the PPZAB and the staff of the PPZ do not appear to be particularly interested in engaging the citizens of Ingham County except as Zoo visitors. Nationally and in the Michigan, public agencies are moving toward increasingly collaborative processes that engage citizens as partners in planning and decision making. I find it quite ironic that I can better understand the frustration of the people whose participation experiences I study now that I am in a position where I feel I have little voice.

The second major reason I am resigning is my frustration with the lack of effective leadership both at the Zoo and on the PPZAB. The PPZAB has been in existence for approximately 16 months (give or take) and there is no forward momentum or energy. There was energy and excitement when the PPZAB was first created but that has now disappeared. The Zoo certainly does look better as the Ingham County Parks
Department has brought the Zoo's appearance and maintenance up to its very high standards. But those changes are cosmetic. There have been no fundamental changes in vision or direction. There are many challenges with the functioning of the Zoo and the Zoo Board has not taken them on. I find the lack of creativity and vision to be disappointing and I find what I perceive as the dysfunctional nature of both Zoo operations and the PPZAB stifling. There are many examples of this dysfunctionality, but prominent are continuing communication issues among the Zoo staff, between the Zoo staff and the PPZAB and among PPZAB members.

As a busy professional, I have limited community service time and I want to invest it in service that utilizes my expertise and makes a difference. Serving on the PPZAB does not do either of those things. Rather than continue to feel like Sisyphus continually pushing a huge rock up a big hill and getting nowhere, I am taking my energies elsewhere.

I have been blunt in this resignation letter in the hope that it will perhaps cause someone to take a closer look at both the Zoo and the Zoo Board. I will be forwarding this letter to the members of the Ingham County Parks Board and the PPZAB so that my reasons for resigning will not be swept under the rug as I worry the concerns of others have been.

Sincerely,

Maureen H. McDonough. Ph.D.
