INGHAM COUNTY, MICHIGAN.

TOWN Three North, RANGE One West, MERIDIAN OF MICHIGAN.

Survey of the east half of section No. Eleven in Township No. Three North of Range No. One West as shown by the accompanying diagram on a scale of 13 chains to one inch, to which the bearings and lengths of lines, the names of owners and letters of reference to the corners described below are respectively given.

Note The east and quarter line was not run across the section as the west quarter post is in the lake and not accessible therefore the corners (3)(12)(19) may be too far north or south as the case might be in running the line across the section.

The quarter post (23) is 34 links south of a right line between the section corners but being the original corner it can not be changed. The corners (3) & (11) were lost and reestablished according to law.

Run by the true Meridian Mag. Var. $1^{\circ}52' E$.
