

# Mural of Hope

Our mural begins with an open gate to a pathway winding through a landscape of choices.

... for a time of peaceful contemplation.

A boy sits under a tree ...

Hope grows  
inspiration swells  
a decision is made

and  
a leap of faith  
lands one ...

... in the helping hands of others.

Shooting stars and dreams  
lead a person ...

... to a field of  
rolling hills and wonder.

All of this  
returning the voyager  
home to the present moment with a deepened appreciation for everyday life and joy.
